

ROBINSON ACTIV[®] WASH

Anti-Bacterial Cleanser

ROBINSONCare

Developed specifically for equine use, Robinson Activ[®] Wash is a multi-purpose, anti-bacterial cleanser that lathers easily, gently cleansing the skin and hair, removing debris and helping to manage bacterial contamination.

The mild cleansing formula contains Triclosan, a broad-spectrum antimicrobial agent, known to be effective against gram-negative and gram-positive bacteria, yeast, fungi and dermatophytes.

Activ Wash is suitable for use as a cleanser in areas prone to mud fever and rain scald and can also be used diluted as a mild anti-bacterial wash to remove mud, dirt and grease.

Robinson Activ Wash can be used prophylactically or to remove any encrusted debris.

Features	Advantages	Benefits
Mild cleansing formula	Gentle on skin	Reduced discomfort Good acceptance
Sustained activity ¹	Reduced frequency of use	Owner convenience
Contains Triclosan	Broad spectrum antimicrobial	Effective bacterial cleansing

Activ Wash is supplied in a practical, sturdy 500ml bottle with a tamper evident cap. To apply, dampen the hair in the area to be cleansed. Invert the bottle and shake well before use. Pour a cap full of wash onto a clean, damp sponge or other applicator and clean thoroughly, but gently. Rinse the area with clean water and dry thoroughly.

Size	Product Code	Pack
500ml bottle	6565	4 bottles per outer
